

std::runtime_error

```
classDiagram
    InvalidCredentialsError --|> std::runtime_error
```

The diagram illustrates an inheritance relationship. At the bottom is a grey-shaded box representing the 'InvalidCredentialsError' class. It contains the class name in the top section and a constructor signature '+ InvalidCredentialsError()' in the bottom section. A blue arrow with an open triangular head points from the top of this box to the bottom of a white box above it. The white box represents the 'std::runtime_error' class and contains the name 'std::runtime_error' in its top section, with two empty sections below it.

InvalidCredentialsError

+ InvalidCredentialsError()
